### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 19 May 2008.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 60-64 and 69-70 are rejected under 35 U.S.C. 103(a) as being unpatentable over Evans et al (US 2002/0010487) in view of Dror et al (5,102,402).
3. Evans et al disclose in figures 2-4, a method for collecting, and removing thrombus from blood vessels, including: scoring the lesion with a scoring structure 19 comprising metal scoring elements 30 which carried by an expansible balloon (see paragraph 68 and 80), and wherein the balloon is expanded to engage the scoring elements against stenotic material in the lesion to cut the stenotic material (see paragraph 65 and 82). Regarding to the recitation a method of delivering a drug to a blood vessel lesion has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).
4. Evans is silent regarding the step of releasing a drug into the lesion.
5. Dror teaches the step of releasing a drug into the lesion (see col. 2, lines 7-37).

Art Unit: 3734

6. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Evans by releasing a drug into the lesion as taught by Dror in order to produce affecting drugs or diagnostic materials exactly where it is needed. Evan further teaches wherein the metal scoring elements are included in a scoring cage carried over but not attached to the expansible balloon (see fig. 2). At best in fig. 4, Evan teaches the scoring elements in the scoring cage which are arranged helically over the balloon. As to claims 61-64, Dror teaches the drug is carried by the balloon 12 as a platform, where the drug is present in capsules 16 or in a drug containing polymer (see col. 2, line 11).

#### ***Response to Arguments***

7. Applicant's arguments filed 5/19/2008 have been considered but are moot in view of the new ground(s) of rejection. Applicant is asked to please refer to the modified prior art rejections above where examiner addresses applicant's concerns regarding prior art rejection.

#### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
